Overview of this information collection:

- 1 *Type of Information Collection:* Extension of a currently approved collection.
- 2 *The Title of the Form/Collection:* National Standards to Prevent, Detect, and Respond to Prison Rape (28 CFR Part 115).
- 3 *The agency form number:* There is no form number associated with this information collection. The applicable component within the Department of Justice is the Bureau of Justice Assistance, in the Office of Justice Programs.
- 4 *Affected public who will be asked or required to respond, as well as a brief abstract:*
On June 20, 2012, the Department of Justice published a Final Rule to adopt national standards to prevent, detect, and respond to sexual abuse in confinement settings pursuant to the Prison Rape Elimination Act of 2003 (PREA) 42 U.S.C. § 15601 et

seq. These national standards, which went into effect on August 20, 2012, require covered facilities to retain certain specified information relating to sexual abuse prevention planning, responsive planning, education and training, investigations and to collect and retain certain specified information relating to allegations of sexual abuse within the facility. Covered facilities include: federal, state, and local jails, prisons, lockups, community correction facilities, and juvenile facilities, whether administered by such government or by a private organization on behalf of such government. As the agency responsible for PREA implementation on behalf of the U.S. Department of Justice, the Bureau of Justice Assistance within the Office of Justice Programs is submitting this request to extend a currently approved collection.

- 5 *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The recordkeeping and reporting requirements established by the PREA standards are based on incidents of sexual abuse. An estimated 13,119 covered facilities nationwide are required to comply with the PREA standards. If all covered facilities were to fully comply with all of the PREA standards, the new burden hours associated with the staff time that would be required to collect and maintain the information and records required by the standards would be approximately 1.16 million in the first year of full compliance, or about 89 hours per facility.

- 6 *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden hours associated with this collection is 1.16 million in the first year of full compliance, or about 89 hours per facility.
